WHO WE ARE

SARA SOLUTION GENERAL CONTRACTING EST. is a contracting and construction company providing reliable solutions for construction, infrastructure, industrial, and site development requirements. We bring together **manpower, equipment, materials, and technical resources** to support projects at different stages of execution.

Our diverse range of services allows us to respond to different project requirements through a single, dependable contracting partner. From site preparation and **civil works** to **building construction, fencing, backfilling, equipment support, trading, and scaffolding materials**, we focus on delivering practical solutions that meet the needs of every project.

We believe successful projects are built on **reliability, quality, safety, efficient execution, and strong client relationships**. Our goal is to provide professional service while understanding the specific requirements of each client and project.

OUR APPROACH

We begin by understanding the project requirements and developing a practical approach around the scope of work. Through proper **coordination, suitable resources, and responsible execution**, we work toward delivering reliable results while maintaining professional standards throughout the project.

WHAT WE DO

SCAFFOLDING MATERIALS

Our scaffolding material solutions are suitable for a wide range of site requirements, including **building construction, structural works, maintenance activities, plastering, painting, and other elevated work.**

FABRICATION WORKS

We provide professional fabrication works for **industrial, commercial, and construction requirements**, delivering strong, durable, and accurately finished structures. Our services include **steel fabrication, structural works, custom metal fabrication, gates, railings, frames, supports, platforms, and other fabricated components** tailored to project requirements.

TRADING

SARA SOLUTION provides reliable trading and material supply solutions to meet the diverse requirements of construction, civil, industrial, and infrastructure projects. We understand that timely access to the right materials and site requirements is essential for keeping projects on schedule and ensuring uninterrupted operations.

Our trading services cover the sourcing and supply of **construction materials, equipment, tools, scaffolding materials, site supplies, and other project-related requirements**. We work closely with clients to understand their specifications and coordinate suitable products according to the needs of each project.

CIVIL WORK

SARA SOLUTION provides professional civil work solutions for **construction, infrastructure, industrial, and commercial projects**. Our services cover essential site and structural activities required to prepare, develop, and support construction projects from the ground up.

BACKFILLING

Our team carries out backfilling work with **proper coordination of materials, equipment, placement, leveling,** and compaction according to the requirements of the project.

We focus on maintaining an organized and efficient process to prepare the ground for subsequent construction activities.

With suitable resources and site-focused execution, we help ensure that completed excavation areas and structural surroundings are properly restored and prepared for the next stage of development.

FENCING WORK

SARA SOLUTION provides professional fencing solutions for construction sites, industrial facilities, commercial properties, infrastructure projects, and general site requirements. Our fencing work is designed to create clear boundaries, improve site organization, and provide practical protection around designated areas.

We handle fencing installation according to the specific requirements of each project, taking into consideration the **site layout, application, materials,** and **required level of protection.** Our team focuses on proper alignment, secure installation, and efficient execution to achieve a durable and functional fencing solution.

EQUIPMENTS

SARA SOLUTION provides dependable construction equipment solutions to support a wide range of civil, infrastructure, industrial, and building projects. We understand that the availability of suitable equipment plays an important role in maintaining productivity, efficiency, and smooth site operations.

Our equipment solutions support activities such as **earthwork, excavation, site preparation, material handling, backfilling, civil works, and general construction operations**. We focus on providing practical equipment solutions based on the specific requirements, working conditions, and scope of each project.

CONSTRUCTION BUILDING WORK

Our construction capabilities include **structural and civil works, concrete works, masonry, block work, plastering, finishing, and other essential building activities**. Every project is approached according to its specific scope, technical requirements, site conditions, and schedule, ensuring that construction activities are properly coordinated from one stage to the next.

We work closely with clients, consultants, contractors, and project teams to maintain organized site operations and consistent progress.

MANPOWER

Our manpower supply service provides reliable workforce solutions for **construction, infrastructure, industrial, and commercial projects**. We understand that every project has different workforce requirements, which can change depending on the scope, schedule, and stage of construction.

SARA SOLUTION supports clients by providing suitable manpower according to their project requirements, helping maintain smooth site operations and consistent productivity.

From short-term requirements to ongoing project support, our manpower solutions are designed to give contractors and project teams the flexibility they need to manage their workforce efficiently.
